

Tech Student Sets Marathon

Radio station WNTC, Clarkson College, will conduct a weekend marathon of broadcasting over Ice Carnival Weekend featuring Richard Kay, who will attempt to broadcast for 48 consecutive hours.

Kay is engaged in a friendly bet with a fellow freshman,

Doug Robinson. They have wagered that Kay can not stay awake the 48 hours with the losers penalty consisting of a crawl on hands and knees from the Clarkson dorms to the downtown Physics building.

WNTC will also be covering the activities of the ice carnival including the hockey game with Sir George Williams Friday evening.
